## Announcement of the Opening of "KeePer LABO Akita Minami"

KeePer Technical Laboratory Co., Ltd. (Head Office: Obu, Aichi/ President: Toshiyuki Kaku) will open a new KeePer LABO Akita-Minami in Akita City, Akita on June 28, 2023.

Store Name	<b>KeePer LABO Akita Minami</b>	Opening Date	<b>June 28, 2023</b>
Location	2-4 Niida Midoricho, Akita City, Akita	Site area	1389.99㎡
		Store area	597.58㎡
Hours of operation	9:00-20:00	Construction site	Vacant land
Concept	<p>The Akita Minami Store is located on National Route 13, a major thoroughfare through the center of the city, with heavy traffic on the front street and a corner location at an intersection, making it the first store to open in the area, but it is expected to gain early recognition. This will be the 6th store in Tohoku and the 118th store as a KeeperLab. It will also house the Akita Training Center.</p> <p>The store is an all-weather store where all work can be done indoors, taking into account that the building is newly constructed and located in a snowfall area. With 4 exclusive coating booths and 4 wash areas, the specifications include a design that allows vehicle washing, and interior cleaning to be completed in one location, reducing the amount of labor required to move vehicles and allowing for safe, quality work. In addition, the training center can be used as a coating booth on weekends and during peak season at the end of the year when no training is being conducted, providing up to 8 coating booths. The facility also includes a guest room where customers can relax and wait while watching the work being done, as well as box seats in the bays where customers can sit in a reception area while viewing vehicles with their customers.</p>
